Course Description:

This on-line course is designed to introduce students to the basic concepts and operations of a disaster environment both nationally and internationally. With a focus on the recovery phase of disaster operations, this course will broaden and enhance your understanding of the roles and responsibilities of Government and Non-governmental agencies. In addition, the course will highlight coordination and problem-solving aspects of all disaster operations. If you would like more information on this course, which will be offered again in the spring semester, please e-mail ehughey@hsc.usf.edu.
